Profile

Medical and water rescue professional with expertise in staffing, building, equipping, training, deploying, and maintaining multifunction EMS services, as well as leading top water rescue and SCUBA rescue/recovery teams. With thirty-three years in EMS and twenty-five years in the business of teaching and providing water rescue, marine safety, and public safety recovery, I have gained the insight needed to effectively bring together multiple resources to accomplish various tasks. These tasks range from small, contained evidentiary dives to large deployments requiring dozens of rescuers over extensive areas, often hundreds of miles away. Additionally, I coordinate marine safety for live events, motion picture productions, industrial applications, and large-scale, mass casualty scenario-based water rescue exercises for parish and statewide government entities.

Experience

Lead instructor with extensive experience in coordinating and managing large teams across various emergency response and safety operations, including:

- Training and Instruction: Delivered training to thousands of students, including task force teams and personnel from the Illinois and Louisiana National Guard, LA Department of Wildlife and Fisheries, and numerous fire, EMS, law enforcement and private entities all across the Gulf Coast as well as AR, MN and MD to name a few
- Disaster Response Experience: Participated as boots on the ground, rescue coordinator or manager, as well as EOC support working with multiple entities during large-scale coordinated deployments and evacuations during significant hurricanes, including Georges, Katrina, Rita, Humberto, Gustav, Ike, Isaac, Harvey, Florence, and Laura and others.
- Flood Response: Key involvement in the management of flood rescue, notably during the May 1995 flooding in Orleans and St. Tammany Parish and the Bogalusa flooding in March 2016.
- Search and Recovery Operations: Coordinated search and recovery efforts for isolated incidents, including the repatriation of a U.S. naval aviator from Lake Pontchartrain in 2010. Collaborated with the U.S. Coast Guard and private organizations for body recoveries and debris recovery operations.
- Event Safety Coordination: Served as a frontline local coordinator for water rescue and safety at industrial events, live broadcasts, and motion picture productions. Collaborated with organizations such as Offshore Super Series, Super Boats International, and the ESPN Iron Man series. Have also held the position of Key Marine Safety for several high-profile film stars like Halle Berry and Kevin Costner.

This extensive experience underscores a commitment to excellence in emergency management, safety training, and operational coordination within high-stakes environments.

Skills

Advanced understanding of water, rescue equipment, standards, trends, and safety. Multidiscipline water rescue instructor: rescue swimmer, rescue boat, rescue diver, swiftwater rescue, water safety & survivability, and other scuba and topwater specialties for multiple internationally recognized and accredited certification agencies (IDEA, PADI, IRIA, ERDI, PSDA, SDI). Well-versed in the seven deadly sins of civil liability as it applies to water/ dive rescue and its avoidance. OSHA compliance safety (OSHA 1910.132, 1926.106). NFPA and IFCA compliant training.

Education Graduate of Riverside Military Academy as 1st Lt., top 10% of graduating class '88
Priority Mobile Health- Paramedic certification 1995
University of Alabama Birmingham Critical Care Paramedic Program 1997
Multiple Internationally recognized NFPA compliant water rescue certifications. (enclosed or available upon request)

Honors, Achievements & Recognition

2024 Top Water Program Director for International Diving Educators Assoc. PS Division.
2022 International Advisory Board of International Rescue Instructors Association (Canada)
